

Applied Behavioral Analysis Provider Quality Monitoring Tool Training

At the recommendation of Louisiana Department of Health, the six Managed Care Organizations (MCOs) have developed a standardized Provider Quality Monitoring Tool for Applied Behavioral Analysis Services. This unified approach will ensure elements required from providers are universal among the MCOs. It is vital for providers to be informed of the updates and revisions made in the Provider Quality Monitoring Tool. To ensure this, all MCOs will be offering training sessions. During the training sessions, you will have the opportunity to ask questions about the updates and revisions. Although the training sessions will be offered by different MCOs, the information provided will be applicable to all MCOs. You do not have to be contracted with the hosting MCO to attend the training.

If you have questions about registration for these trainings please contact Rene Huff at 225-342-3935 or by email at rene.huff@la.gov.

The following is a list of the dates and times the sessions will be offered:
